REPORT OF UNAUTHORIZED DISCLOSURES

Central Intelligence Agency

INTERAGENCY REPORT
CONTROL NO.

1224-USA-QU

Definition—An unauthorized disclosure is defined as a communication or physical transfer of classified information or material to an unauthorized person. Reportable unauthorized disclosure cases are those which involve the release and disclosure of classified information, either deliberate or inadvertent, as contrasted to physical security violations such as, for example, an unattended open safe, or the confirmed loss of control of a classified document. It includes, but is not limited to, unauthorized disclosure of classified information

in a newspaper, journal or other publication or any other communications media where such information is traceable to a Department because of a direct quotation, or other uniquely identifiable fact. The principal criteria for determining whether an unauthorized disclosure is reportable to the ICRC include both: (1) the release and disclosure are of sufficient importance to warrant formal investigation; and (2) the formal investigation confirms that an important disclosure did occur.

Instructions—Provide the following details concerning each incident:

1. Date the incident occurred, if known.
2. Subject and security classification of the compromised information and whether the information can be declassified.
3. Identify the document (defined as any recorded information in any medium), if known.
4. Identify the publication (public press, technical journals, report, etc.) speech or briefing containing the unauthorized disclosure or the unauthorized recipient of the classified information.

5. Include the Department's (or Agency) evaluation of the impact of the unauthorized disclosure on national security.
6. Indicate whether the unauthorized disclosure has been referred to the Department of Justice for prosecution, and the probable jurisdiction. In lieu of recommended legal action, indicate other action taken or pending.
7. Where appropriate, state action planned or taken to prevent similar disclosures or recurrences.
8. Attach additional sheets or exhibits as necessary.
9. Submit report on this form no later than thirty calendar days after the end of each quarter.

DESCRIPTION OF INCIDENT

NOTE: This report is submitted in accordance with procedures agreed upon with the ICRC staff and recorded by CIA letter dated 15 February 1977. The procedures specify that the Agency report unauthorized disclosures in statistical summary form, and because of the highly sensitive nature of the intelligence data revealed by the disclosures, retain all background documents and damage assessment reports in Special Security Center files, available for ICRC review. Also included below is a report for the period ending 12 December 1976, for comparison with the current period report.

PERIOD ENDING 12 December 1976

During this reporting period thirteen (13) unauthorized disclosures were reported to the Special Security Center, OS. Damage assessments were prepared in each instance for forwarding to the DCI and/or the Security Committee, NFIB.

PERIOD ENDING 30 June 1977

During this reporting period, four (4) unauthorized disclosures were reported to the Special Security Center, OS. Damage assessments were prepared in each instance for forwarding to the DCI and/or the Security Committee, NFIB.
